WilceCare is not health insurance. It is a supplement to your existing annual health insurance*. Many families choose WilceCare if they have high deductibles, high out of pocket expenses, or if the Wilce Student Health Center is not in-network with their family insurance.

*The SHI office routinely verifies the health insurance information you provide to ensure compliance with the university requirement.

Wilce Care covers up to $2000 in medical treatment for illness and/or injury, and up to $225 for prescription drugs with cost share. Annual cost of the WilceCare Supplement: $225
A few examples of covered* services are:

- Office visits for treatment of illness or injury
- Diagnostic services to diagnose illness or injury
- Minor wound care including suturing
- Select dermatological procedures
- Physical therapy
- Allergy injections (serum excluded)
- Prescription drugs for treatment of illness or injury (cost share required)

A few examples of excluded* services are:

- Health Care services that are not provided or not available at the Wilce Student Health Center.
- Preventive care
- Dental or Vision care

*For a complete list of covered and excluded services, visit shi.osu.edu/wilcecare-supplement

Assuming eligibility, a WilceCare purchase stays in effect 8/16/2022 to 8/14/2023. WilceCare must be selected by August 16, 2022.
